

# Fletcher 3000® Multi-Material Cutter

The Fletcher 3000 wall-mounted cutter is a unique glass cutting unit that compliments any automated glass cutting operation. The 3000 can be used in any glass and industry fabricator as a cutting method for small volume custom work, prototype requirements, recuts, and aids in the company's scrap reduction efforts.

## Key Performance Standards:

- Wall-mounted machine available in 48" or 60" cutting capacity
- Cleanly scores glass and acrylics up to 1/4" (6.35mm)
- Off-line cutting method for custom cutting and prototype usage
- Score and break-out glass and acrylics right on machine
- Patented break-out device

## Design Features:

- Machine is Wall-Mounted, Multi-Material Cutting Capability.
- Material Clamping System: Lever-type clamping system that covers the entire machines height to prevent buckling and shifting of material.
- Cutting Head: Rides on high tensile strength steel, hard chrome-plated and polished. Teflon bushings for ease of movement, turret assembly for rapid, safe blade selection and change.
- Glass Cutting Turret has a ramping feature that allows the lifting of turret device on top edge of glass resulting in a cleaner edge break.
- Horizontal Support System: Factory assembled with steel rivets insuring squareness of machine over time.

*Fletcher's Patented "Break-Out" device completes the score in acrylics and glass with ease.*

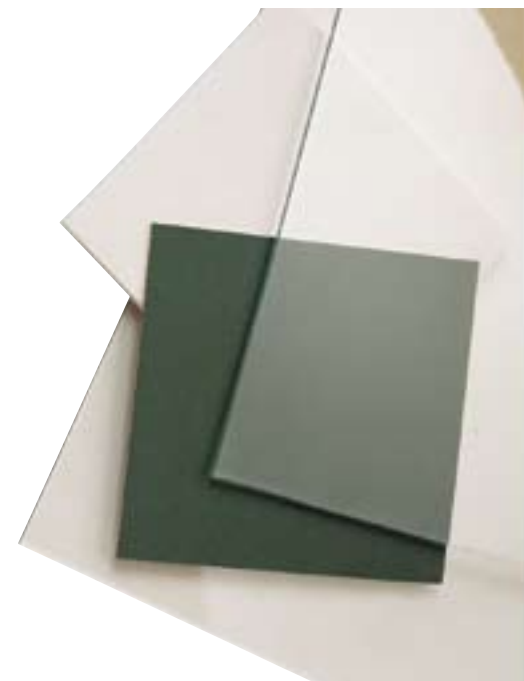

## Cutting Materials:

- Glass
- Acrylic
- Foamboard
- Cardboard

- Available in both a 48" and 60" Model.

*Cutting Turret equipped with three different blades for versatile cutting/scoring.*

## Specifications:

### 3000 Multi-Material Cutters

<b>Description:</b>	48" 3000 Multi-Material Cutter	60" 3000 Multi-Material Cutter
<b>Fletcher Part Number:</b>	04-711	04-712
<b>Cutting Material:</b>	48" and 60" - Glass / Acrylic / Styrene / Foamboard / Cardboard	
<b>Max. Material Thickness:</b>	Up to 1/4" (6.35mm)	Up to 1/4" (6.35mm)
