

August 2010

Dear Lyn,

A bit like that Poem by Elizabeth Barratt Browning 'How do I love thee, let me count the ways.....' How do we thank thee, let us find the words.....

Our training with you was incredible, we talked about it virtually the whole way home. We are soooo grateful for all the different procedures you taught us and for the thoroughness and meticulousness which will stay with us and make us good (and in time, excellent!) framers. We both know there is much more to learn and want to return when we have been able to consolidate our present learning. We are also grateful for the level at which you teach and the constant reminders of the artwork conservation priority.

Apart from the comprehensive course content and logical format, we would like to thank you for the generous gift of your time and the unstinting flow of extra information. Your course is exceptional value for money, and of the highest standards. We are both motivated to prove ourselves worthy to be known as Lyn Hall students.

In addition to everything else the course was fun.....we loved and thoroughly enjoyed the whole experience, the personal perspectives are entirely positive. There only remains to say thank you thank you thank you.

With very best wishes,

Charles and Sue
